

Fact Sheet

About Menorah Medical Center

Menorah Medical Center is a full-service, acute-care hospital located on the corner of 119th and Nall in Overland Park. The hospital serves our community's healthcare needs by providing compassionate care and some of the most advanced treatment options available in the Kansas City area. Menorah has a medical staff with more than 600 physicians covering the spectrum of specialties, and offering exceptional experiences and extraordinary medicine for adults, newborns, children and teens.

Menorah was the first hospital in Johnson County dual certified as an Accredited Chest Pain Center and Certified Stroke Care Center.

Extraordinary Care. Unmatched Experience.

- Progressive cardiology services include the area's first congestive heart failure clinic, state-of-the-art cardiac cath lab, electrophysiology lab, and specially equipped surgical suites for open-heart surgeries.
- Menorah was the first hospital to introduce the area's first and only CyberKnife® - at a time when there were only 20 other machines in the United States.
- The Sarcoma Institute of Menorah is a regional center of excellence for the treatment of bone and soft tissue cancers.
- Menorah Urgent Care is located just West of 151st and 69 Hwy. The Urgent Care is physician staffed and provides care to walk-in patients every day of the week.
- Menorah's PET/CT image quality is unparalleled to any other imaging device in the Kansas City region. The high-definition technology delivers razor sharp images that are uniform, high-detailed resolution across the entire field of view that provides a complete picture of what is happening in the body.
- Menorah was the first hospital in Johnson County to offer Mammosite®, an advanced technology for breast cancer that targets cells and limits the exposure to healthy tissue to radiation.
- The Accredited Breast Center of Menorah offers a full complement of services including diagnostic digital mammography, ultrasonography and MRI guided biopsy.
